

Geometry Processing Dataset Award 2019

assigned to

**Sebastian Koch , Albert Matveev , Zhongshi Jiang ,
Williams Francis , Alexey Artemov , Evgeny Burnaev ,
Marc Alexa , Denis Zorin & Daniele Panozzo**

for the work

**ABC Dataset
a Big CAD Model Dataset For Geometric Deep Learning**

“The committee awards the authors of the ABC Dataset for their tremendous effort collecting the models, analyzing their statistics and preparing the dataset for research use. The scale of this dataset provides an exciting new bridge between Geometry Processing and Machine Learning.”
